linkedin.com/in/irene-nyambura

Irene is an ambitious Software Developer who seeks real-world experience to develop her acquired skills. She is proficient in HTML/CSS, JavaScript, and Python. She is eager to learn new processes, programs, and procedures to maximize contributions to the end-user, team and business success. Irene is also a CyberSecurity enthusiast who believes in the power of protecting individual and organizational digital platforms.

EDUCATION

Software Development AkiraChix

02/2019 – 11/2019

Nairobi, Kenya

CodeHive

- Front-end Development
- Graphic Design
- Mobile Development
- Entrepreneurship
- Back-end Development
- Product Design
- Hardware Electronics

WORK EXPERIENCE

Web Developer - Intern Infonet Africa

08/2019 – 10/2019

Nairobi, Kenya

Achievements/Tasks

- As a web developer at Infonet Africa, I collaborated with senior-level developers to develop changes for one of their project's website throughout various phases of the project lifecycle.
- I worked on cross-platform app development using the Cordova framework, by fetching data from an existing API to display data on the app.
- Collaborated with the design team to develop different website layouts for the cross-platform app.

Field Sale Representative Ennsvalley Bakery Limited

05/2018 – 01/2019

Nairobi, Kenya

Achievements/Tasks

- As a field sales representative, I ensured that all the supermarkets assigned to me had enough supply of bread and cakes. I was also responsible for the shelves display and pushing sales for my product in terms of promoting the bread and cakes to the customer. I achieved a 10% sales increment in my assigned stores as compared to the previous months when I was not the one in charge of the stores. This experience taught me an important lesson about the value of partner relationships and presentation in addition to the core product.

SKILLS

JavaScript(React JS)

HTML & CSS

Leadership

Conflict Resolving

Improv Thinking

Python(Django)

Cordova

Basic Skills of Cyber Security

AWS(Completing on 15th December)
